Welcome Screen

Hey Boomers!
An especially warm welcome to new Boomers joining us with this thrill-packed issue of STC. Where have you been? Don't worry, it's not too late to join the mass ranks of Boomers (that's Megadroid-speak for 'pals', 'buddies', and readers of STC) and this is a great issue to do it with.

Not only do you get the great free gift of an **STC Belt Clip**, but you get two fab new series: There's a brand-new series of the highly-popular **Legends Of The Golden Axe**, and the STC debut of one of the biggest stars on the Sega scene - **Ecco The Dolphin**. Yes, Boomers, you voted the finned wonder as one of the characters you'd most like to see in an STC strip - and we listened. Just shows you how highly we value your input. Keep filling in the Data Strip at the back of each issue.

Then there's our great new Winners Take All Compo. Masses of Sonic toys and games for masses of winners. You can't not enter this one, Boomers.

In fact there's so much in this issue that we've had to shorten our Reviews Zone to make room for it all. Don't worry, the Zone will be back in it's full glory next issue, promise.

The thrills don't stop here. Next week another brilliant free gift is coming your way - the **Sonic Xmas Deco!** What exactly is it? Well, all I'll say is that Christmas will never be the same again!

WHAT IS IT?

Tell us and win a Pirate TV T-shirt

- It's a belt clip
- It's a fashion item
- It's a paperclip
- It's a thing to clean your nails with

It's the merely sensational STC Belt Clip. Thread it onto your belt, bag strap or tie(!) and stroll around town showing that you are a reader of Britain's only Official Sega Comic. Spot other Sonic Boomers as they strut their stuff and yell out the secret of the black and yellow initials - SONIC THE COMIC! You'll win new friends and influence people.

OR you could put it to a multitude of other uses. What are these? Well you can find some of them above BUT why don't you tell us what other purposes you could put the STC Belt Clip to?

We've got five exclusive **Sega Pirate TV T-shirts** (XL size only) to give away to the five Boomers who come up with the wildest, wackiest and most original ideas! Send your ideas to - **What Is It? Sonic the Comic, 25-31 Tavistock Place, London WC1H 9SU.** All entries must be in by Monday 29th November. Winners will be announced in a future STC.

THE COST OF STC

Regular Boomers will have noticed that this issue costs 15p more than usual. I'd like to say that the price rise is because the humes-who-think-they're-in-charge are actually paying me for this job, but the real reason is that everything costs more these days; paper, ink, transport (getting STC to you), power sneakers - you name it.

However, the good news is that even at £1.10, STC will be providing you with the very best in Sega entertainment every fortnight. We've got some great new series in the works - plus some mega surprises. How about **Sonic The Poster Mag**? To find out more about this and other hot news, keeping reading STC. It's the best video game comic you can buy!

REVIEW Zone SPECIAL

SONIC SPINBALL

game type: ARCADE
1-2 PLAYERS

He's blue, he's bad, and he's BACK! Even though Sonic has been absent from your console since November '92, the boffins at Sega have been working hard to bring you some hot new action! SONIC SPINBALL took its inspiration from the pinball sections in Sonic 2. The object of this game is to recover the Chaos Emeralds from the H-U-G-E pinball arenas, set up by the fiendish Doctor Robotnik.

Of course, life in this game is never easy, especially as Robotnik has laid down traps galore, and is aided by wicked alien combos who have the ability to knock you out of each zone.

The action is different from your standard Sonic game, enabling the player to control Sonic's movements with flippers and the D-pad (the D-Pad allows you to gently sway Sonic, whilst he is in mid-air). Plus, there are other bumpers to bound off, barrels to paddle in, wagons to roller coaster on, and crazy Robotnik droids to hit - all washed down with lots of yukky green slime!

You quickly learn that the object is to locate the Emeralds in each zone and free them up. This includes moves like bouncing off aliens to ram pins - which in turn, release deadly slime from around the Emerald. Or you can ride a wagon in search of a secret exit, which then sucks you through to an Emerald in a hidden chamber!

You also get to face-off with Robotnik at the end of each stage. Needless to say, this can be a real nightmare! One battle even pits you against Robotnik and a thrashing scorpion-like tail. You then have to leap inside the tail and bounce him out by hitting his head!

As the game is crammed full of surprises and fast twists, it is fair to say that the above mentioned barely scrapes the surface of all the gameplay featured.

Overall, SONIC SPINBALL is a very challenging game that takes a little time to get into. However, it is well worth it as you're sure to have a wild and wacky adventure!

CLASH OF THE TITANS

Heavy metal action with RoboCop and Terminator

Ever wondered what the outcome of a head-to-head showdown between the two fiercest movie cyborgs would be? Well, wonder no more, for Virgin Games are about to release **RoboCop vs.Terminator** for the Mega Drive, Master System and Game Gear later this month.

Based on the recent comic series of the same name, produced by award-winning comic creators Frank Miller and Walt Simonson, the game invites you to explore the world of robots and machines as none other than RoboCop himself. You'll discover what it's like to come up against a whole army of Terminators on the loose. Further into the game RoboCop takes on Terminator creepy-crawlies, as well as dangerous Terminator dogs, but he is armed with superior firepower, such as lasers, homing bullets and high power shots.

Remember, the fate of humankind is on the line and it's up to you as do the right thing.

RoboCop vs. Terminator features 12 levels of high-octane action, dozens of Terminators, ED-209 robots and much more. The MD version comes packed with 16Mbits of gameplay and some great graphics. Watch for the full STC review, coming soon.

WINTER OLYMPICS WIN GOLD

David Vine replaced by video game!

Next year's Winter Olympics is coming to a Sega system near you in time for Christmas, courtesy of U.S. Gold.

Last month, in a flurry of fake snow and bad ski suits, U.S. Gold announced that it had aquired the official computer, video and CD game license for the event to be held in Lillehammer, Norway, next February. The game of Games will be available on the Mega Drive, Master System and Game Gear, as well as some other video games systems and PCs. All ten Olympic 'disciplines', or events, ranging from Down Hill racing and Bob Sleigh to Freestyle Moguls and Biathlon will be featured in the game along with training sessions, opening and closing ceremonies, history of the Winter Olympics and much more.

David Vine and Wilf O'Reilly trying to pick up some tips from the Mega Drive version of Winter Olympics

U.S. Gold made quite an event of the announcement itself. David Vine, TV's 'Mr Ski Sunday', hosted the event and introduced Wilf O'Reilly, European Speed Skating Champion and current world record holder, to demonstrate his sport on the video game. He unceremoniously came in last. Better luck with the real thing, Wilf.

A group of young 'playtesters' were on hand to try out the game for themselves. Among them was STC reader Benjamin Phillips, who declared it, "Better than most sports games and with good control".

U.S. Gold's programmers have lavished great attention to detail on **Winter Olympics.** The actual sites and tracks in Lillehammer have been used along with a location map showing where each of the events is to be held. The game can be played in any one of eight languages (including Norwegian). There is a four-player option and the chance for head-to-head challenges in speed skating and the freestyle moguls.

The actual 1994 XVII Winter Olympic Games themselves will be no less impressive. A potential TV audience of almost two billion will be able to tune into the action. Approximately 2,000 competitors from 75 countries will take part. 100,000 spectators are expected each day, and over one million hot dogs will be sold!

STC asked David Vine if he was worried that people might prefer to play the **Winter Olympics** game to watching his TV reports of the real thing. "Not really," he told us. "It'll be something to do when we're snowed off!"

DON'T LOSE CONTROL

Two new controllers announced

Spectravideo has two new products on the way for Sega users; **The QJ Propad 2** and the **Freewheel**.

The QJ Propad 2 features a six-button layout for fighting games, such as Streetfighter 2. The pad also features an original programmable-mode where two of the top buttons can be programmed. For example, for a combination move when playing SF2, all it takes is just one key press to perform a stunning combo with someone like Ken (it would normally take several key presses). Other features include auto fire, slow motion and a unique LED control panel. **The QJ Propad 2** is due for release this December, priced at £22.99.

For driving games fans, **The Freewheel** is basically a steering wheel with built-in sensors, but which behaves like a joystick. Plug it into the joystick port, as usual and hold it in both hands. The firing buttons are placed at the top front of the wheel for easy steering access.

Moving forward is a straightforward procedure: push the wheel forward and pull back (this is equal to pulling the joystick back). **The Freewheel** is also out in December, priced at £34.99.

Sonic Chaos: One of the great line-up of MS games

MARCH OF THE MASTER SYSTEMS

8-bit games thrive at Sega

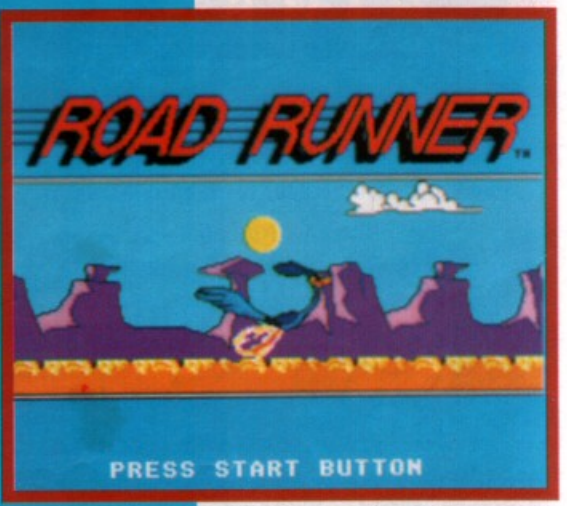
There's been a lot of talk recently about the 'demise' of the older 8-bit video game systems. Some manufacturers are producing fewer and fewer good 8-bit games and seem only to be concentrating on the 16-bit market. Not Sega. The company is supporting their Master System users with a continuing line of high-quality games, with many new ones appearing in the shops before Christmas.

STC has already covered **Sonic Chaos**, **Ottifants**, **Home Alone** and **The Flash**, all of which should be out now.

November sees no less than six new MS titles hitting the shops:

- **Masters Of Combat** - a mind-boggling fighting game, in the style of *Streetfighter 2*. It features fighters with special moves and the gameplay is fast and addictive.
- **Jurassic Park** has a storyline based on the blockbusting feature film. Needless to say, it has some mean platform action and rather vicious dinosaurs to avoid.
- In addition there's **Road Runner**, **Asterix 2: The Secret Mission**, **Streets of Rage 2** and **Ecco The Dolphin** (a near perfect conversion from the MD original).

So, MS fans, Sega is not neglecting you, now or in the future. The next few months will see some of the best titles yet released for the popular 8-bit system.



SHORT BURSTS

SONY SPLASHES OUT

Not content with filling the world with Walkmans, electronic giant Sony is now turning its attention to the video games market. Under their new Sony Imagesoft label an impressive line-up of original and movie tie-in titles are about to be unleashed. Out now (or soon) for the Sega systems are: **Last Action Hero** (MD, MS, GG), **Hook** (MD), **Bram Stoker's Dracula** (MD, MS, GG), **Cliffhanger** (MD, MS, GG), **Sensible Soccer** (MD,MS, GG), and **Gear Works** (GG). Watch STC for more news and reviews of all these titles.

GAMES TO MOVIES

Hollywood is falling over itself to cash in on the video game scene. Currently in the works are live-action films based on **Double Dragon** and **Mortal Kombat**. Let's hope they are a lot better than 'Super Mario Brothers'!

SONIC'S 'HIGH Q'

Move along Mario, make way Mickey Mouse - Sonic's taking over. In America, it was discoved recently that Sonic's 'Q-Rating' (a measurement of the popularity of Media celebrities) is the highest of any cartoon character. This means he has now overtaken a certain overweight plumber as the top video game superstar. Is anyone surprised?

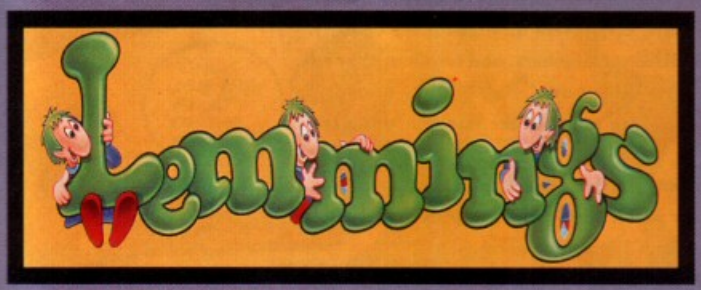
LEMMINGS Tips

MS

These rodent-like creatures seem to cause a lot of people bother. They either seem to go the wrong way, or don't do what they are told. All owners of the 8-bit game can finally breathe a sigh of relief as I present another level select cheat:-

When the Lemming dragging the cartridge appears on screen, press buttons 1 and 2 together on the joypad and rotate the D- pad clockwise. Go to the main screen and select your choice of game. Select the New Level box and a list of levels will appear. Press Left and Right to select your level.



CYBORG JUSTICE Tips

MD

Cyborg Justice is a real beat-em-up game, and features the added ability to pick up pieces of armour discarded by opponents. If you are having difficulty try this cheat which brings up a secret options screen:

Start a duel or arcade game and press pause. Now, press C, B, B, C, C, A, C and B on the joypad.

MICRO MACHINES Tips

MD

Following the success of **Micro Machines**, a fair number of you Boomers may be having problems making progress in the game. Lucky for you then, I have three cheats for the game to make it as easy as, eh, buying STC:

To gain infinite lives start playing the game, and as the cars start moving, press Start to pause. Now press B, Down, Up, Down, Left and Down. Unpause the game, and you can now die repeatedly without losing a life!

If the Micro Machine vehicles go too slow for you, here is a cheat to make them faster. Once again, start and pause the game. Press Up, Down, A, B, Left and Right. Now press C and Start together to go.

A number of people seem to have difficulty with the grip on the vehicles - there just isn't enough. I have a cheat to greatly increase the surface grip when turning corners. Start, then pause the game. Press A, Up, B, Down, C, and Left. Finally press Start and Right together.

JAMES POND: ROBOCOD Tips

MD

That fishy Secret Agent, James Pond, is one cool cod. Anyone having problems controlling this slippery character will be pleased to see a variety of cheats for this Mega Drive extravaganza:

• For a level select, wait until the title screen appears and then press A, C, Down, Left and then Start. An options screen will appear allowing you to choose your starting level.

• To become invincible, go to the first roof on the screen where all the doors are and collect the following objects in this order: **C**ake, **H**ammer, **E**arth, **A**pple and **T**ap. This spells out CHEAT.

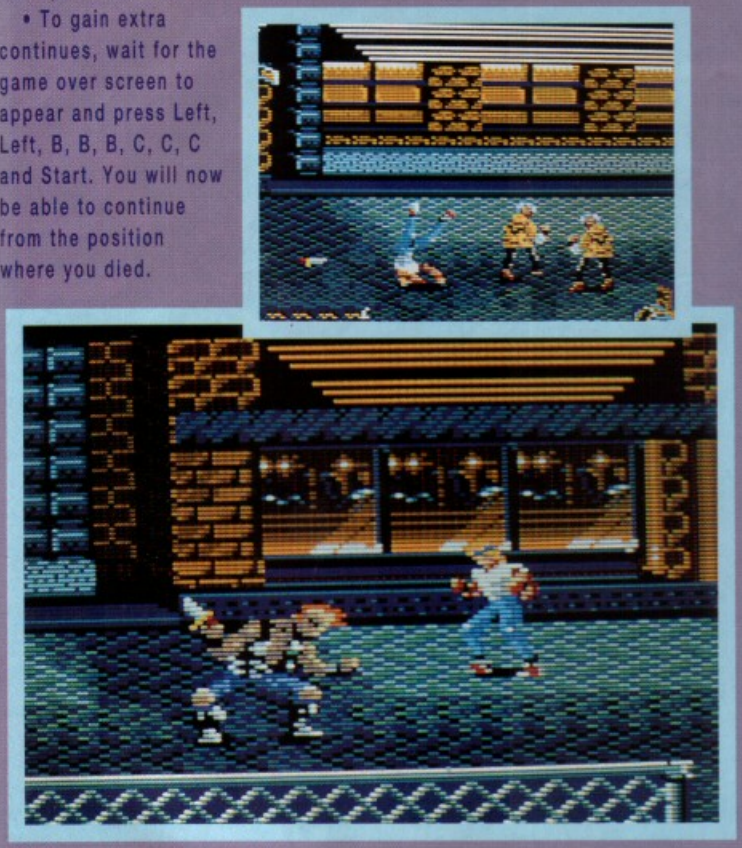
• Go to the Sports Zone, and after crossing the spikes, collect these objects in the following order: **L**ip, **I**ce-cream, **V**iolin, **E**arth and **S**nowman. This spells out LIVES and will grant you an infinite number of them.

STREETS OF RAGE Tips

Here's some help for handheld owners of the brill beat-em-up game (and brilliant STC series!), **Streets of Rage**. If you're having problems defeating any of the nasty opponents try these:

• To become invincible and gain a level select cheat, select tracks 01 then 11 on the Sound-Test screen, then press buttons 1 and 2 together for the Options screen.

• To gain extra continues, wait for the game over screen to appear and press Left, Left, B, B, B, C, C, C and Start. You will now be able to continue from the position where you died.



MORTAL KOMBAT Tips

One of the most hyped games ever to grace a Mega Drive, **Mortal Kombat** has proved to be a very good beat-em-up, but still not up to the standards of Streetfighter 2. Here is a cheat that will give you a whole range of cheats selected from a menu:

On the menu screen, press Down, Up, Left, Left, A, Right and Down on the joypad.

HUMAN ERROR

Megadroid here. Just popped in to tell you that a human-type error crept into the News Zone in STC 10. In an item about the new Mega Drive II and Mega CD II a price of £249.99 was given, which some of you might have thought to be the price of both units together. Not true, I'm afraid. They are sold separately at £129.99 for the Mega Drive II (complete with Sonic 2 game) and £249.99 for the Mega CD II (with Road Avenger included). There're on sale now are are absolutely great - unlike the humes who think they run this comic!

Hard Cheese!

Dear STC,

I have a few short questions I would like you to answer, please:-

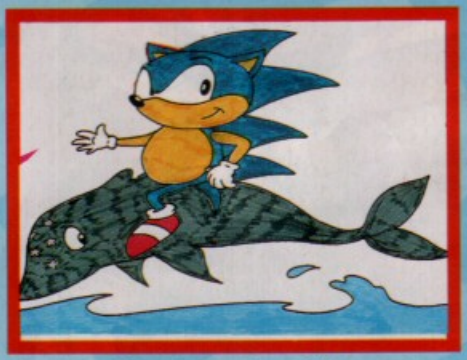
1) Why was there no blood and guts in the **Shinobi** cartoon strip?

2) How come Sonic doesn't have smelly feet after all the running he does?

Richard Guest, Warley, W. Midlands.
Sonic Water Fun Game Winner.

1) Why? Should there have been, Richard?

2) Perhaps he wears mega-powerful odour eaters.



(Above) Louise Tarrant, (send in address). MS Owner. Sonic Water Fun Game Winner.
(Below) Mark Gerrard, Widnes, Cheshire. Sonic Water Fun Game Winner.

Short-Lived!

Dear STC,

Is this the shortest letter you've had?

Matthew Drill, Bicester, Oxon. MD Owner. Sonic Water Fun Game Winner.

P.S.- I think you should have your own comic strip!

So do I, Matthew, and no because you went and added a P.S., you daft hume.

Driven Mad!

Dear STC,

When I bought STC 3 (the one with the free poster), I thought it was ace. But my dad got so fed-up with me reading it that he threw it out of the car window. I wanted him to stop the car so I could get it back, but he wouldn't!

Craig Renilson, Blairgowrie, Perthshire. MD Owner. Sonic Water Fun Game Winner.

At least you weren't reading the Encyclopaedia Britannica - there could've been a nasty pile-up!

By Josh!

Dear STC,

I really like the idea of combining a comic with a computer magazine, but I have some queries:-

1) Why do Sonic and Tails wear gloves? Are their hands rotting, or something!

2) What is Robotnik's first name (and I don't mean Doctor?)

Keep up the good work, from your number one fan.

Josh 'Whizz Kid' Harvey, Calver, Sheffield. MD Owner.
Sonic Water Fun Game Winner.

1) If gloves are good enough for a certain mouse, they're good enough for a certain hedgehog and fox!

2) Ivo (at least it's not 'Whizz Kid!')

Stressed Little Fingers!

Dear STC,

A little while ago I had to go to the hospital because I chopped off the top of my finger. I was going to draw you a picture but that put an end to that!

Robert Matthews, Henwick Park, Worcester.
Sonic Water Fun Game Winner.

Well, Robert, at least that explains the handwriting! Hope your finger is better now.
